

Calculator Application

Developed By

Aditya Anand

Version

1.0

Project Overview

This project is a Windows Desktop Calculator Application developed using **C++**, **Microsoft Foundation Classes (MFC)**, and **Visual Studio 2022**.

The objective of the project is to demonstrate object-oriented programming, GUI development, event-driven programming, and professional Windows application development.

Technologies Used

- C++
 - Microsoft Foundation Classes (MFC)
 - Visual Studio 2022
 - Windows API
 - Inno Setup Compiler
-

Features

Standard Calculator

- Addition
- Subtraction
- Multiplication
- Division
- Decimal Support
- Percentage

- Modulus
- Sign Change (+/-)

Scientific Functions

- Square Root
- Square
- Reciprocal ($1/x$)

Memory Functions

- MC
- MR
- MS
- M+
- M-

User Interface

- Dark Theme
- Rounded Custom Buttons
- Hover Effects
- Professional Layout
- Expression Display
- Calculation History Panel

Additional Features

- Keyboard Support
- Error Handling
- Large Number Support
- Installer Package
- Desktop Shortcut
- Start Menu Shortcut

Project Structure

- Calculator Engine
- User Interface (MFC Dialog)
- Custom Round Buttons
- History Panel
- Installer (Inno Setup)

Installation
